BULLETIN OF THE MONTH

Aunt Sammy's radio recipes

Home and Garden Bulletin No. 215

This new bulletin brings together recipes from the 1927 edition of "Aunt Sammy's Radio Recipes," and some other favorites from current USDA publications. The character of Aunt Sammy—wife of Uncle Sam—was created by the former USDA Bureau of Home Economics and the Radio Service. By 1932, stations throughout the United States were broadcasting Aunt Sammy's show and listeners wrote for copies of the recipes. The Agricultural Research Service has brought back a condensed version of the cookbook. Current recipes emphasize time-saving techniques, money-saving ingredients, and good nutrition. All of the recipes have been kitchen tested and found acceptable by taste panels.

NOTE: Single copies of publications other than those listed for sale only may be obtained free as long as the supply permits from the Office of Communication, U.S. Department of Agriculture, Washington, D.C. 20250. Prices are given for the convenience of persons desiring to purchase these publications in quantities and for those who make frequent purchases of government publications. Remittances should be sent to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402, except as otherwise noted.

FARMERS' BULLETINS

Johnsongrass . . . as a weed. (F 1537) 18 p.

This slight revision explains ways to control Johnsongrass, one of the ten worst weeds in the world. Detailed instructions are given for cultural control such as crop rotation, fallow plowing or disking, pasturing and mowing.

Poison ivy, poison oak, and poison sumac: Identification, precautions, eradication. (F 1972) 16 p. 35¢.

This slightly revised bulletin discusses the various kinds of poison ivy, poison oak, and poison sumac; precautions against and treatment for these poisons; and ways to eradicate the plants.

HOME AND GARDEN BULLETINS

How to prevent and remove mildew, home methods. (G 68) 14 p. 35¢.

This revision tells homemakers how to protect clothing and household items against mildew by keeping them clean, getting rid of dampness and musty odors, and by giving special care to some articles and surfaces. It also gives instructions on removing mildew.

Conserving the nutritive values in foods. (G 90) 16 p. 25¢.

This slightly revised bulletin discusses the factors that affect the nutritive value of foods. Helpful information is given on how to select, trim, store, cook, and reheat vegetables; how to retain nutritive value in fruit and fruit juices; effects of storage on canned fruits, vegetables, and meats; and how to be vitamin-wise when you select vegetables.

Cheese in family meals: A guide for consumers. (G 112) 30 p. 35¢.

This slightly revised bulletin gives tips on choosing cheeses to suit the needs of the consumer; a guide to storing cheese at home; suggestions for serving as a snack or dessert; pointers on cooking; and a comprehensive collection of recipes using cheese in family meals.

Aunt Sammy's radio recipes. (G 215) 24 p. 45¢.

Water on the fire. 1952. 27 min, 16mm film.

Demonstrates effective and economical ways to use water in extinguishing various

types of burning fuels in the forest of the Eastern United States.

Men, women and children: 1954. 27 min, 16mm film.

Shows how the everyday unsafe habits of kindly people can cause devastating forest fires through negligence and thoughtfulness. They didn't mean to start a forest fire. Safe habits in forests are emphasized.

Longer life for wood. 1954. 17 min, 16mm film.

Designed to show the average user of wood the economic advantages of using treated wood in places where decay is likely to occur. Shows the value of good construction, and how improper construction can lead to early decay in wood. Portrays treatment of wood with preservatives in commercial treating plants, as well as home treatments on the farm and in the city.

The forest. 1960. 29 min, 16mm film.

Shows that natural forests are valuable for water conservation, timber, forage and recreation. Depicts trail riding, skiing and picnicking. Uses little narration. Music is by the Air Force Symphony Orchestra.

Helicopters in fire control. 1960. 13 min, 16mm film.

The small helicopter has demonstrated a wide utility in fire control. Shows the various ways in which it has proved valuable and how its use must be wisely managed with other air and ground equipment.
